-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 requires that the strip have width and thickness of the same order. It is not possible to determine the intended scope of the claim. Does this mean that the width and thickness are the same or does it mean that the width and thickness are both in millimeters, microns, etc.? Does it mean that the width and thickness are approximately the same or very close? The term "of the same order" can be used to refer to all of these suggestions. The phrase does not particularly point out and distinctly claim the subject matter which the applicant regards as his invention.

Allowable Subject Matter

3. Claims 1 – 13 and 15 – 30 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach, alone or in combination, a Schottky barrier photodetector including "a waveguide structure formed by a strip (100) of metallic material surrounded by material (112) having a relatively low free charge carrier density".

Response to Arguments

5. Applicant's arguments filed May 13, 2005 have been fully considered but they are not persuasive.

Applicant argues that the term, "of the same order" has been taken out of context. The term is nebulous, having no context as it stands. Applicant further asserts that application number PCT/CA 02/00971 teaches what is meant by the term "same order". The subject matter from the PCT application has not been incorporated into the present disclosure and cannot be relied upon for subject matter that is not taught in the instant application.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
